

Upload Research Results:

According to "NSRRC beamline proposal submission and subvention operation regulation" item 10, users allocated NSRRC beamtime should provide the following four types of data to NSRRC via online submission.

1. Publication lists (including accepted, in-press, published, and conference papers) relevant to NSRRC.
2. Student dissertation list (current and graduated students whose dissertations are related to NSRRC).
3. Patent relevant to NSRRC.

4. 2-page Annual Experiment Report in the format of [Word](#)/[Pdf](#). Sample [Word](#)/[Pdf](#).

Item 1 ~ 3 should be uploaded whenever it is available. For Item 4, please upload annual experiment report for each year's proposal in the attached format whenever the allocated beamtime has been executed completely yearly.

Upload path:

- For item 1 ~ 3, log in to <http://portal.nsrrc.org.tw>. Click "Research Result Submission" at the upper right corner → "Edit Data" → Publication List/Student Dissertation List/Patent to add new data or update submitted data.
- For item 4, log in to <http://portal.nsrrc.org.tw>. Click "Research Result Submission" at the upper right corner → "Annual Experiment Report" → "As project investigator/As project member" to upload the Annual Experiment Report. If you would like to renew or refer to the submitted report, please click "Report Submitted"

For detailed information on the submission of each type of research results, please [click](#).
